Cc: Dan Woynillowicz; Susan Casey-Lefkowitz
Subject: follow up from Pembina & NRDC

Dan,
On behalf of Dan, myself and Susan, the Pembina Institute and NRDC thanks you for your time last week.

Please find links to the documents that we handed out:

1. Briefing Note: The uncertain prospect of oilsands exports to Asia from Canada's West Coast
2. Pipeline to Nowhere? Uncertainty and unanswered questions about the Enbridge Northern Gateway pipeline
3. Life cycle assessments of oilsands greenhouse gas emissions: A checklist for robust analysis

I also wanted to ensure you had links to the three independent reports that I mentioned in the meeting by the Royal Society of Canada: Environmental and Health Impacts of Canada's Oil Sands Industry, the Office of the Auditor General of Canada report of the Commissioner of the Environment and Sustainable Development on monitoring water resources (Chapter 2) and a federal review panel looking at the effectiveness of water quality monitoring. All three pointed to weaknesses of federal monitoring, oversight, or management of oil sands resources.

If someone can forward me the email contact information for Keith, I will ensure he receives the information as well.

As you know, you may contact us at any time if you or anyone in your department has additional questions.

Thank you,
Danielle
